

Industrial Flooring Solutions for Factory & Warehouse

Our Warehouse System

Seamless, hygienic, and durable

Colour & signage capabilities for visual organisation & safety

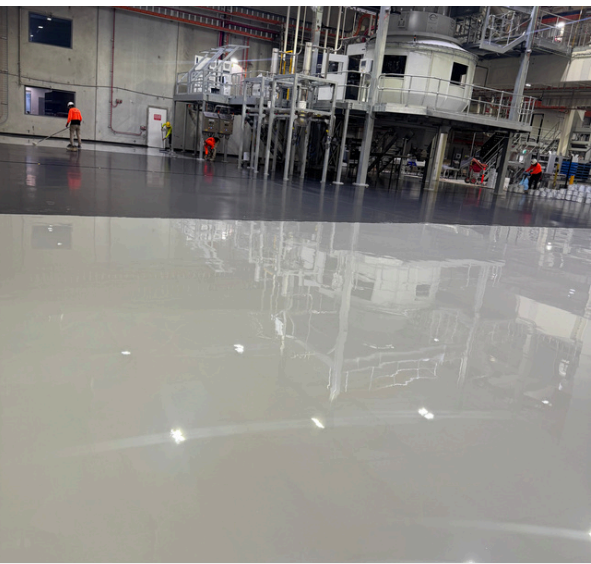

Long service life with little-to-no maintenance

Specifically designed for warehouse usage:

- Anti-static & slip resistant options available
- Oil & chemical resistant
- UV stable
- Easy to clean

Our Warehouse Services

Floor Preparation

Floor preparation isn't optional - it's foundational.

Inadequate floor preparation affects the quality, durability and appearance of any installation. We prepare the substrate through diamond grinding or shotblasting, removing surface contamination & creating a CSP3 profile ensuring excellent adhesion.

Warehouse Floor Coating

Suitable for warehouses, distribution centres, logistics facilities, plant rooms, loading & dispatch areas. A seamless and dust-free surface protects your floor, warehouse stock and team.

Available with a wide range of colours and signage capabilities.

About Us

- Second-generation family operated business
- Over 40 years' experience
- Servicing NSW & ACT
- No job too big or small
